Training Courses in Gynaecological Endoscopy

Course Schedule

2020

Certified Training School of the German Society
for Gynaecological Endoscopy (AGE)

Prof. Dr. med. Ibrahim Alkatout, M.A.
Head of the Kiel School of Gynaecological Endoscopy
Senior Consultant

Prof. Dr. med. Nicolai Maass
Director of the Dept. of Ob/Gyn

Dr. med. Göntje Peters
Deputy Head of the Kiel School of Gynaecological Endoscopy
Senior Consultant

Dr. med. Mohamed Elessawy
Specialist of the Dept. of Ob/Gyn

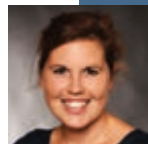

Dr. med. Damaris Freytag
Specialist of the Dept. of Ob/Gyn

Dr. med. Johannes Ackermann
Resident of the Dept. of Ob/Gyn

Prof. em. Dr. med. Dr. h.c. Liselotte Mettler
Patroness of the Kiel School of Gynaecological Endoscopy

Saskia Struck
Office
Kiel School of Gynaecological Endoscopy

Birte Schollmeyer
Office

Standard Training Courses in Gynaecological Endoscopy

10 th – 12 th February 2020	Language: German
11 th – 13 th May 2020	Language: English
02 nd – 04 th September 2020	Language: German

Focus	Access techniques, safety steps, adnexal surgery, diagnostic and operative hysteroscopy
Course length	3-day course
Morning	Live surgery and short lectures
Afternoon	Lectures and hands-on training on the hystero- and pelvitrainers. The hands-on training takes place on newly designed, authentic pelvitrainers according to a training programme ("Become an expert in four steps") developed in Kiel. The focus lies on spatial awareness, skill exercises, preparation training, cyst enucleation and the acquisition of different suturing techniques.
Registration fee	€850

Learning Targets

- I. Fundamentals of operative hysteroscopy:**
Preoperative diagnostics, problems and complications, action to be taken when complications occur. Resection of polyps, myomas and endometrial ablation on the hystero-trainer
- II. Fundamentals of laparoscopy:**
Application of pneumoperitoneum, alternatives at previously operated sites, action with obese or very slim patients, application of second puncture, optics
- III. Procedure at:**
Diagnostic laparoscopy, sterilization, endometriosis, ovarian cysts, ectopic pregnancy, salpingectomy, adnexectomy, myoma, enucleation and hysterectomy
- IV. Risks and complications:**
Prevention of complications, action to be taken when complications occur, previously operated sites, adhesions, radiation therapy, hernias

Specialised Advanced Training Courses

16 th – 19 th March 2020	Language: English
28 th September – 01 st October 2020	Language: English
26 th – 29 th October 2020	Language: German

Focus	Uterus myomatosis, hysterectomy, myomectomy and endometriosis
Course length	4-day course The course includes a half-day intensive course in clinical anatomy and a live demonstration of specially prepared anatomical specimens in cooperation with the Institute of Anatomy
Morning	Live surgery and short lectures
Afternoon	Lectures and hands-on training on the hystero- and pelvitrainers. The hands-on training takes place on newly designed, authentic pelvitrainers according to a training programme ("Become an expert in four steps") developed in Kiel. The focus lies on spatial awareness, skill exercises, preparation training, cyst enucleation and the acquisition of different suturing techniques.
Registration fee	€1,100

Learning Targets

- I. Implementation of operative hysteroscopy:**
Treatment of polyps, myoma, septum and synechia; endometrial ablation
- II. Laparoscopy:**
Myoma enucleation, LASH, TLH, extensive endometriosis, adhesions, lymphadenectomy, incontinence surgery, risks and complications including action to be taken

Participants receive a certificate of the German Society for Gynaecological Endoscopy (AGE) and a diploma of the Kiel School after successful completion of the course.

The courses are recommended by the National Academy for Gynaecology and the Schleswig-Holstein Medical Association.

Indo-German Training Course in Gynaecological Endoscopy

14 th – 23 th August 2020	Language: English
---	-------------------

Morning	Live surgery and short lectures
Afternoon	Lectures, hands-on training on hystero- and pelvitrainers, virtual reality simulators, computer simulation, video sessions
Registration fee	Registration fee and further details are given in a separate announcement
